

HAHN KT-R

Butt hinge for PVC doors

KT-R gives a new dimension to a PVC door - improving aesthetics with functionality of a 3D adjustable butt hinge.

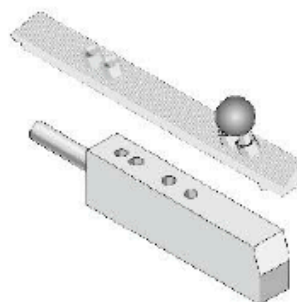

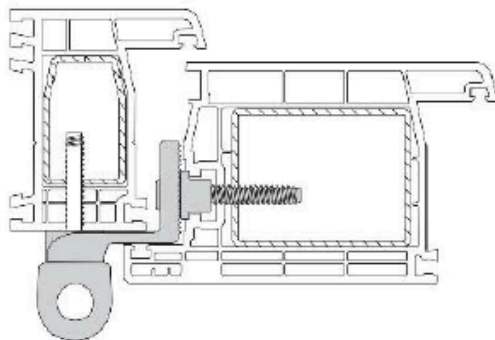

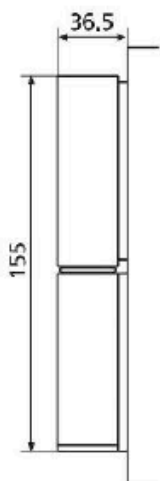

- Corrosion-resistant, maintenance-free bearing pin made of stainless steel
- Horizontal adjustment, infinitely variable $\pm 3\text{mm}$ with door mounted
- Further enhanced security with anti-lift pin (optional)
- Gasket pressure adjustment + 0.5 mm by turning the bearing bushing
- Simplified quick installation
- Height adjustment, fine tuning +3 mm / -1 mm with door mounted
- Compatible with all PVC systems in Australia
- Doors open to 180°
- Non-handed
- Predetermined zero lateral adjustment position
- Max. 100kg door leaf with two hinges

Manufactured from extruded aluminium, two KT-R hinges can carry a door leaf with a weight of 100 kg, depending on the type of profile. The hinge is applicable for DIN-left and DIN-right doors and can be applied to inward-opening as well as outward-opening doors. The opening angle is 180°.
