Lock Better. Live Better.

MAKING
LIFE
BETTER

WHAT WE STAND FOR

Everyday we live our overarching purpose; to make life better for our team, our customers and to drive our industry forward. To be better than yesterday and committed to a better tomorrow through everything we do.

Ultimately, we inspire architectural innovation and improve homes to create enjoyable and efficient lifestyles. We search the world over to source the most desirable, innovative and superior products available for the Australasian market. Combining stunning aesthetic design, state-of-the-art features, and first-class thermal efficiency, FSA introduces incredibly smart solutions for Australian window & door manufacturers and their customers.

Our experience and research reflects a detailed understanding of local and international markets, technical expertise and a dedication to exceptional customer service and streamlined support. This is exemplified in our extensive portfolio demonstrating our commitment to making life better.

FSA’s partnership with Auslock is an exciting step forward into the Home Automation segment for Windows and Doors and one that is very exciting from a product and innovation perspective.

Auslock was established by a group of Australian architects and builders who have key insights into the building industry on all levels. They have over 40 years combined experience with extensive knowledge and their aim is to help advance Australia with new, market leading technology from around the world. Leading the tech space in Smart Lock hardware, Auslock has options to suit all needs and being based in Australia, they ensure all quality assurance and compliance with Australian standards.

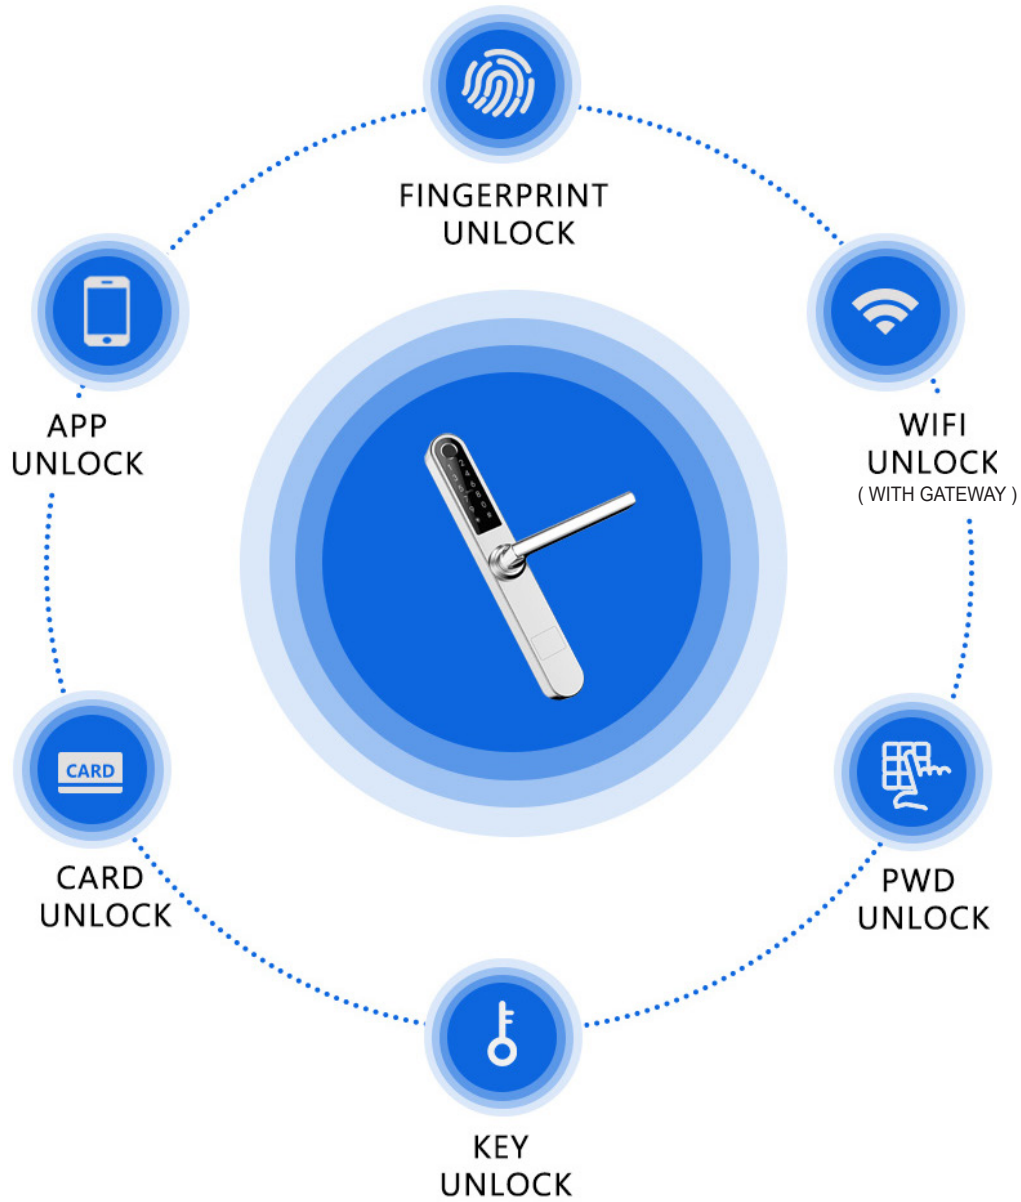

The main focus for Auslock extends beyond profits, ensuring products are high quality, durable, affordable and feature rich and their choice of FSA as their premier partner for the fabricator market is to ensure that this is backed up by top class service and support.

The Auslock commitment:

“To provide products which are not only Australian first, but also world first”
